

PRUEBAS UNITARIAS PARA COMPRAR

Código de “InvoiceFixture” para “InvoiceModel”

```
1  <?php
2  ▼ /**
3   * Invoice Fixture
4   */
5  ▼ class InvoiceFixture extends CakeTestFixture {
6
7  ▼ /**
8   * Import
9   *
10  * @var array
11  */
12     public $import = array('model' => 'Invoice', 'records' => true);
13
14 }
```

Código de “HistoricInvoiceTest”

```
1  <?php
2  App::uses('HistoricInvoice', 'Model');
3
4  ▼ /**
5   * HistoricInvoice Test Case
6   */
7  ▼ class HistoricInvoiceTest extends CakeTestCase {
8
9  ▼ /**
10   * Fixtures
11   *
12   * @var array
13   */
14     public $fixtures = array(
15         'app.historic_invoice'
16     );
17
18     public function setUp() {
19         parent::setUp();
20         $this->HistoricInvoice = ClassRegistry::init('HistoricInvoice');
21     }
22
23     public function testHistoricInvoiceModel() {
24         $result = $this->loadFixtures('HistoricInvoice');
25         debug($result);
26     }
27
28     public function tearDown() {
29         unset($this->HistoricInvoice);
30
31         parent::tearDown();
32     }
33
34 }
```

Código de “InvoicesController”

```
1  <?php
2  App::uses('InvoicesController', 'Controller');
3
4  ▼ /**
5   * InvoicesController Test Case
6   */
7  ▼ class InvoicesControllerTest extends ControllerTestCase {
8
9  ▼ /**
10   * Fixtures
11   *
12   * @var array
13   */
14   public $fixtures = array(
15       'app.invoice',
16       'app.address',
17       'app.payment_method',
18       'app.cart_product',
19       'app.cart'
20   );
21
22  ▼ public function testAdd() {
23      $result = $this->testAction('/invoices/add');
24      debug($result);
25  }
26
27  ▼ public function testCheck() {
28      $result = $this->testAction('/invoices/check');
29      debug($result);
30  }
```

Resultados de las pruebas unitarias

Running InvoiceTest

1/1 test methods complete: 1 passes, 0 fails, 0 assertions and 0 exceptions.

Time: 0.025598049163818 seconds

Peak memory: 10,930,192 bytes

Resultado de la prueba para el Modelo Invoice (InvoiceTest)

Running HistoricProductTest

CHALLENGE POWER

1/1 test methods complete: 1 passes, 0 fails, 0 assertions and 0 exceptions.

Time: 0.019769906997681 seconds

Peak memory: 10,928,896 bytes

Resultado de la prueba para el Modelo HistoricInvoiceProduct (HistoricInvoiceTest)

Running InvoicesControllerTest

CHALLENGE POWER

2/2 test methods complete: 2 passes, 0 fails, 0 assertions and 0 exceptions.

Time: 0.18769907951355 seconds

Peak memory: 11,371,496 bytes

Resultado de la prueba para el Controlador Invoices (InvoicesControllerTest)
